■ Description:

Winstar's WF18, WJ35, WF40 and WF101 series panels will be discontinued (EOL) due to changes from our panel supplier, HSD. Due to current environmental regulations related to PFAS, HSD has decided to discontinue the raw materials used for these panels. In addition, their equipment has reached the end of its service life. Therefore, HSD will cease production of these panels and no longer support future demands.

To minimize the impact on our customers, Winstar is currently developing replacement versions to facilitate an easier transition. Further details, including specifications and availability will be provided later. Thank you for your understanding and attention.
